Display Interface (EPC-DI50E) Specifications

PRICE LEVEL CAPACITY	3 to 6 Digits, up to 8 levels, single or double side
DIMENSIONS	115 mm X 90 mm X 55 mm, External Antenna: 180 mm
ENCLOSURE Rating	Polycarbonate, Light Grey IP65
ELECTRICAL Input	12Vdc, 150 mA
ENVIRONMENTAL Operating Temperature Storage Temperature	-40°C to +85°C (-40°F to +185°F) -40°C to +85°C (-40°F to +185°F)
INPUT / OUTPUT PORTS I/O Port to Side 1 I/O Port to Side 2	4-conductor cable with sealed connector – Control Signals 2-conductor cable with sealed connector – 12 Vdc Supply 4-conductor cable with sealed connector – Control Signals
RF COMMUNICATION Frequency Band Transmit Power Range Certification Standards	Communication between the Input Controller and the Display Interface Unit - 863 - 870 MHz - 14 dBm (25 mW) - 2000 m, line of sight - EN 300 220-1 V3.1.1 / EN 300 220-2 V3.1.1
